Investment trusts are quoted companies listed on the London Stock Exchange. Their share price is determined by factors including demand, or lack of, which means that the shares may trade below (at a discount to) or above (at a premium to) the underlying net asset value.

In line with industry best practice, Net Asset Values (NAVs) are now shown that take into account the 'fair value' of debt. NAVs – namely available shareholders' funds divided by the number of shares in issue, with shareholders' funds calculated as the net value of all the company's assets having deducted liabilities – are now calculated after allowing for the valuation of debt at fair value or current market price, rather than at final repayment value. Most professional advisers and institutional investors already allow for fair value of debt when assessing NAV and discount information, so this change provides private investors with information which takes into account a more realistic impact of the cost of debt and thus a more realistic discount.

The Merchants Trust PLC

Fund Manager's Review

UK equities recorded another good month in February with the FTSE All Share Index rising by 2.2% and the FTSE 100 Index temporarily exceeding 5000. The market has now risen by nearly 40 % from its March 2003 low and by 16 % from its August 2004 dip. Company results have been re-assuring and there has been an established trend of higher dividend payments and cash returns to shareholders.

The leading sectors were resources, pharmaceuticals and chemicals whilst retailers, utilities and banks were dull. Leading stocks for the Trust were Tate & Lyle, Glaxo and Rio Tinto though Barclays, EMI and Utd. Utilities performed poorly. Looking ahead there is the prospect of good growth in dividends and take-over activity remains firmly on the agenda. Investment opportunities in high yield stocks are encouraging. There are now 55 holdings in the portfolio[†].

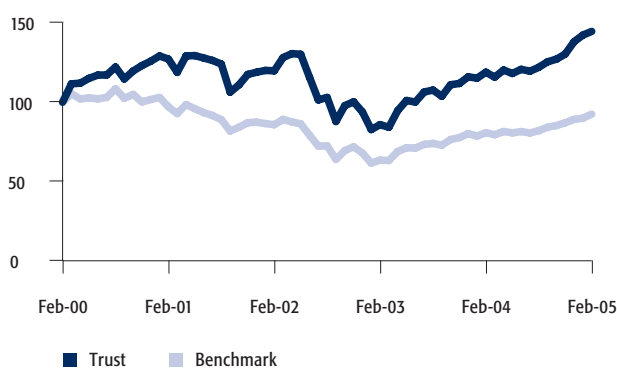

Announcement of Preliminary Results

For the year ended 31st January 2005

On 8th March 2005 The Merchants Trust PLC announced the 23rd successive increase in annual dividends to shareholders. The Net Asset Value (NAV) per ordinary share at 31st January 2005 also increased by 16.2% to 406.8p compared with 350.1p at the same time in 2004. This compares with a 10.5% increase reported by the FTSE 100 and 15.3% recorded by the FTSE 350 Higher Yield Index. Dividends and earnings were also up on the previous year. The Board has declared a final dividend of 4.5p per share (payable on 11th May 2005) which gives a total of 18.0p for the year ended 31st January 2005, an increase of 2.3% when compared with last year.

Please remember that past performance is not necessarily a guide to future performance. The value of an investment and the income from it can fall as well as rise as a result of market or currency fluctuations and you may not get back the amount originally invested. This investment trust charges 65% of its annual management fee to the capital account. This could lead to a higher level of income but a lower capital return.

Trust Aim & Characteristics

To provide an above average level of income and income growth together with long term growth of capital through a policy of investing mainly in higher yielding UK FTSE 100 companies.

**Merchants seeks to enhance returns for its shareholders through gearing, in the form of bank borrowings, to buy more investments. Gearing can boost the Trust's returns when investments perform well, though losses can be magnified when investments do badly. You should be aware that this Trust may be subject to sudden and large falls in value and you could suffer substantial capital loss.

History

The Merchants Trust PLC was incorporated in February 1889, making it the oldest of the investment trusts in the Allianz Global Investors stable. Initially it invested mostly in the fixed interest securities of railway companies in the USA, Canada and South America; with the remainder held in Government securities and companies such as Castlemain Brewery in New South Wales. The Trust now concentrates primarily upon major UK companies with an above average rate of dividend yield.

Launch Date: February 1889.

Wind-up Date: None.
